CONSTRUCTING COHERENT CURRICULA? PUSHING THE BOUNDARIES

Association of Midwest College Biology Teachers Conference
October 16-18, 1997
Beloit College, Beloit, WI

We particularly encourage presenters to submit proposals for sessions that relate to the theme of "Constructing Coherent Curricula." Such proposals will be given preference; however, we encourage you to submit proposals on any innovation in college biology education. Beloit College has facilities to enhance collaborative learning, seminars, wet labs, field sites (a native prairie, a woodlot and an oak opening campus, as well as several aquatic environments) and electronic communities. One Biology Department lab has twelve ethernet connections to the Internet as well as other facilities with stand-alone workstations. We welcome ideas for sessions that include, but are not limited to: Interdisciplinary Connections, Interesting Labs and Field Studies, Teaching Methods that Work for You, Ideas for Students not Majoring in Biology, Reflections on Student Investigation, and Biology Education Strategies Using Technology.
