The BioQUEST Curriculum Consortium is an open community of bioscience educators and researchers interested in undergraduate science curricular reform. The projects of the Consortium are designed to help teachers develop tools and resources to provide their students with opportunities to solve complex, research-like problems in the classroom.

We invite you to become involved in BioQUEST - attend a workshop, collaborate on a project, or explore a computer simulation!

Biocomplexity in Undergraduate Education:
From Hard Data to Hard Decisions
The Annual BioQUEST Summer Workshop
June 15 - June 23, 2002
Beloit College Beloit, WI

LifeLines OnLine Summer Workshop for Faculty from Two Year Colleges
May 30 - June 2, 2002
Southeast Missouri State University
Cape Girardeau, MO
Apply now: bioquest.org/lifelines.html

BioQUEST Project: BEDROCK
Join us at one of several planned workshops, such as the Chautauqua Short Course at Clark Atlanta University May 8 - 10, to develop and field test new learning materials for implementing bioinformatics in your bioscience curricula.

BioQUEST Project: Microbes Count!
Designed to accompany the video series Unseen Life on Earth, this collection of multimedia resources for problem solving in microbiology will be published in 2002 by ASM Press.

BioQUEST Project: Biocomplexity
A new curricular initiative in BioQUEST addresses the development of teaching strategies for integrating biocomplexity and its multidisciplinary approaches to problem solving in undergraduate education.

BioQUEST Curriculum Consortium
Beloit College
700 College Street
Beloit, WI 53511
