The curriculum model we have designed is inquiry-based, collaborative, student-centered, and intentional in both sequence and context. In their use of technologically sophisticated tools that rapidly carry out familiar procedures based on understood concepts, collaboratively investigating answers to interesting questions they themselves have set, students develop rich and contextual knowledge and understanding of biology and bioinformatics concepts, procedures, and technologies.

Call for Reviewers

We are looking for persons who are willing to review manuscripts for Bioscene. We need reviewers for a wide variety of subject areas. Reviewers should be willing to provide in depth reviews and detailed suggestions for authors concerning revisions necessary to improve their manuscript for possible publication. Reviewers should be willing to provide a rapid turn-around time for the manuscripts they review. If you are interested in reviewing for Bioscene, please send an email that includes your phone number, FAX number, and a list of the areas for which you are willing to review to: William Brett, Chair of the Editorial Board, at lsbrett@isugw.indstate.edu.
