CAREERS IN THE LIFE SCIENCES

The March and April, 1978 issues of American Biology Teacher will be devoted to articles about careers in biology. These issues will include articles on:

- Teaching at the elementary, secondary and college levels
- Opportunities in Marine Biology, Genetics and Genetic Counseling, Microbiology, Entomology, Agriculture
- Combining talents in Art and Biology, Writing and Biology
- Health Careers, Outdoor Careers, Museum Careers, National Park Service Careers
- Special Features on Matching Characteristics of People and Jobs,
  A Career Education Program, Fungibility, Technicians and
  Technologists, Handicapped Biologists, Women in Biology

And a Bibliography of Career Information, Reviews of Books and Audiovisuals on careers.

Order copies at $3.50 for both: NATIONAL ASSOCIATION OF BIOLOGY TEACHERS, 11250 ROGER BACON DRIVE, RESTON, VIRGINIA, 22090.

CITIZENS' WORKSHOPS ON ENERGY AND THE ENVIRONMENT

To arrange for a workshop contact the workshop leader in your area.

Kentucky
Dr. Wm. G. Lloyd, Chief Chemist
Institute for Mining & Mineral Research
213 Bradley Hall
University of Kentucky
Lexington, KY 40506
FTS: 355-3212
606-257-2811

Indiana
Mr. Walter A. Cory
Coordinator for School Science
Indiana University
Morrison Hall 103
Bloomington, IN 47401
FTS: 331-7000
812-337-9785

Ohio
Dr. Nelson E. Sartorius
Assoc. Prof. of Chemistry
Wittenberg University
Springfield, OH 45501
FTS: 774-2700
513-327-7432

For areas not listed contact:
Oak Ridge Associated Universities
Citizens' Workshops
P. O. Box 117
Oak Ridge, Tennessee 37830
615-483-8411

ERDA wants to improve public understanding of the problems involved in energy decisions. This program, along with other ERDA public information programs, provides a broad perspective on energy problems and possible solutions, as well as their effects on the environment.
